Please join us on January 11th
Our Program is "Making a Pollinator Picnic Hamper"

"Month by Month in Our Garden" is the theme for 2021-2022 meetings of the Wildflower Circle. Each month we will discuss a variety of plants that can be added to our Central Florida gardens during that particular month. We will discuss plants for the landscape, bedding plants and unusual plants that can be used as accents or in containers. This year the emphasis will also be on plants that attract bees and other pollinators.

Our Raffles Table will feature plants, seedlings and cuttings appropriate to each month's program as well as many other types of plants donated by our members. A Silent Auction Table is featured each month as well.

Meetings are free and open to anyone interested in gardening, plants and floral design. You need not be a member of The Wildflower Circle to attend, but if you are interested in learning more about the work of the Florida Federation of Garden Clubs, we will be happy to share membership information with you.
